PC4020CF and the Requirements of UL864 8th Edition

The PC4020CF has been listed by UL under the requirements of UL864 8th Edition.

Products manufactured before December 31st, 2008 are labeled with the UL listing mark indicating compliance with the current requirements at the time the product was manufactured.

All UL labeled products continue to be listed and can be installed in new or existing commercial fire installations in accordance with NFPA72 rules. The listing on already manufactured and UL labeled products, that were in compliance with the applicable UL standard (UL864 8th edition) at the time of manufacture, will continue to be valid for the rest of the product's life.

DSC will continue to offer the PC4020CF while inventory of UL labeled product, manufactured before December 31st, 2008, lasts. The PC4020CF has not been submitted for testing under UL864 9th edition requirements and therefore DSC does not manufacture UL labeled PC4020CF products at this time.

Panels, Keypads & Modules
